NATIONAL /POLY ANTHEM

THE NATIONAL ANTHEM

Arise, O compatriots, Nigeria's call obey
To serve our fatherland
With love and strength and faith
The labor of our heroes past
Shall never be in vain
To serve with heart and might
One nation bound in freedom, peace, and unity.

Oh God of creation, direct our noble cause
Guide our leaders right
Help our youth and truth to know
In love and honesty to grow
And living just and true
Great lofty heights attain
To build a nation where peace and justice shall reign

FPI ANTHEM TITLED: A NEW DAWN

ABOUT THE CONFERENCE

The Federal Polytechnic, Ilaro is one of the seven Federal Polytechnics established by the Federal Polytechnics Act No 33 of July 25, 1979. According to the Act, the Institution is to provide technical and practical-oriented training to meet the manpower requirements for the industrial, agricultural, commercial and economic development of Nigeria.

Specifically, the Act requires the Institution

a. To provide full-time and part-time courses of instruction and training to students
    I. in technology, applied science, commerce, management and
    ii. in such other fields of applied learning relevant to the needs of the development of Nigeria in the area of industrial and agricultural production and distribution and for research in the development and adaptation of techniques
b. To arrange conferences, seminars and study groups relative to the fields of learning specified in paragraph (a) above

As part of its pursuit of this mandate and other objectives, the Polytechnic instituted "The International Conference of The Federal Polytechnic, Ilaro. Ogun State". The thrust of the Conference is the provision of a forum for academics and researchers from within and outside the country, the opportunity to present and discuss their work, exchange information on current best practices across disciplines and proffer or advance solutions or recommendations towards addressing issues of great concern or challenge.

The maiden edition of the Conference was held in November 2018, while the 2nd Edition with the Theme: "Emerging Trends in TVET as Contributor to Economic Transformation for Global Competitiveness" has been scheduled to hold from Monday November 9 – Thursday November 12, 2020.

We have carefully selected presenters both within and outside the country that are vast in the subject area to share from their wealth of experience and research exposure in the key area - Emerging Trends in Theme of the Conference. Authors are invited from various disciplines to send in their original research work related to the theme or sub-theme of the conference.

Distinguished Ladies and Gentlemen

It is my great pleasure to welcome you all to the 2nd International Conference, The Federal Polytechnic, Ilaro, Ogun State. The theme of this biennial Conference is "Emerging Trends in TVET as a Contributor to Economic Transformation for Global Competitiveness" with sub-themes that focus attention globally on current issues in Technical and Vocational Education and Training [TVET].

This International Conference was initially planned to hold physically on the Campus of The Federal Polytechnic, Ilaro, Ogun State. Nigeria, however, with the outbreak of the ravaging COVID-19 pandemic and the need for the observance of COVID-19 Safety Protocols in line with best practices coupled with the desire to sustain the frequency of hosting the biennial Conference despite all challenges, the Organizing Committee and the Management of The Federal Polytechnic, Ilaro opted for virtual hosting of the Conference.

The Keynote Speaker and Lead Paper Presenters had been invited from both within and outside the country. They are vast in the main theme and sub-themes of the Conference with immense wealth of experience and research exposure to share with scholars, researchers in the academia and industry.

The Keynote Speaker, Prof. (Mrs.) Maame Afua Nkrumah is currently the Dean of the International Programmes and External Linkages Office (IPELO) of Takoradi Technical University (formerly Takoradi Polytechnic), Takoradi, Ghana. She holds a PhD and a Master's degree from the Universities of Bristol, United Kingdom and Twente, The Netherlands respectively. She is a teacher by profession and has been into TVET at the tertiary level since 2005.

Engr. Dr. Kamoru Oluwatoyin Kadiri, a Lead Paper Presenter, is the Director, Directorate of Affiliate Programmes, The Federal Polytechnic, Offa, Kwara State, Nigeria. Dr. Kadiri holds the Master's degrees in Computer Science, Business Administration, Industrial & Labour Relations, PhD in Networking & Telecommunication. He is a Fellow of the Nigerian Institution of Electrical and Electronics Engineers and the NSE, a Registered Engineer with COREN. Dr. Kadiri is an accomplished researcher that has published over 42 publications in top journals, author of 7 books, holds 2 patents and presented several papers at conferences.

Prof. Olaniyi Samuel Okedele, also a Lead Paper Presenter, is a professor of Architecture and Urban Design, University of Lagos, Lagos. Nigeria. He graduated from the Catholic University of America, Washington, D.C with B. Sc., M. Arch., and M. Arch. (Urban. Design). His research interest includes Theories in the

Design Aspects of Architecture and Urban Studies for Sustainability. He has several articles published in peer-reviewed national and international journals. Prof. Okedele is a Fellow of the Nigerian Institute of Architects; Fellow of the Society of Construction and Industrial Arbitrators of Nigeria.

Indeed, there is no doubt that this Conference will provide an opportunity for academics and researchers in TVET to present and discuss their work, exchange information on current best practices and proffer recommendations towards addressing some national and global issues of great concern or challenge in Technical and Vocational Education and Training [TVET].

The Conference has raised a great interest judging by many enquiries received for participation. As at the time of going to the press 236 full length papers had been submitted, reviewed and adjudged for presentation. This has given us good reasons to believe that this international forum will certainly provide the opportunity for the formulation of appropriate framework that will allow for the exploration and utilization of our immense human and natural resources through Technical and Vocational Education and Training [TVET] for global industrial development and economic growth.

In line with the traditional structure of the biennial conference, the wealth of in-depth and broad information in Technical and Vocational Education and Training [TVET] for industrial growth will be presented in plenary sessions to provide the basis for a dialogue between eminent and distinguished Keynote Speaker, Lead Paper Presenters and participants. The plenary sessions would be followed by technical sessions that have been arranged to fit into individual areas of interest and thus give more room for questions and discussion among participants. Due to time constraint, the technical sessions are to run in ten (10) parallel sessions

At this juncture, let me seize this opportunity to commend and appreciate the efforts of the Rector, Arc. Olusegun Olarewaju Aluko, PhD, his Management team, Staff and students of this great citadel of learning, for ensuring a conducive environment for learning, teaching and research. It is on record, that The Federal Polytechnic, Ilaro had been adjudged the best Polytechnic in Nigeria twice within a period of 8 months. The latest was the Webometrics ranking of tertiary institutions worldwide, July 2020 edition in which the institution was ranked the best Polytechnic in Nigeria Tertiary Institutions.

The outbreak of COVID-19 pandemic in December 2019, has brought out the ingenuity and creativity in the faculty of the Polytechnic in the design and development of the following equipment aimed at either curtailing the spread of the pandemic or assisting in the treatment of patients:

a. Mechanical Ventilator
b. Disinfectant Booths
c. Multiple Outlets Hand Washing Machines
d. Movable Environmental Sanitizer

Indeed, The Federal Polytechnic, Ilaro is setting the pace for other Polytechnics in Nigeria and a tertiary institution that has made its impact globally.

The Book of Conference Proceedings and Certificates of presentation for all full paying participants are available and can be downloaded from the Conference website: https://www.fpi2ndinterconf@federalpolyilaro.edu.ng

My thanks go to all individuals who had contributed in one way or the other to the making of the 2nd International Conference, The Federal Polytechnic, Ilaro. In particular, I acknowledge and appreciate the contribution of members of the Organizing Committee both individually and collectively, and the Chairmen of parallel Technical Sessions. I am eternally grateful to all the faculty of this great institution for their unwavering support towards the hosting of the Conference. The financial support from LLOYDANT Business Services Limited Utaka District, Abuja, as a major stakeholder towards the hosting of the Conference is acknowledged and immensely appreciated.

We have great opportunities and challenges in Technical and Vocational Education and Training [TVET] as a tool for economic transformation and I believe that your contributions and recommendations in this Conference will be an impetus for TVET to be better positioned for a continuing and sustainable economic development globally.

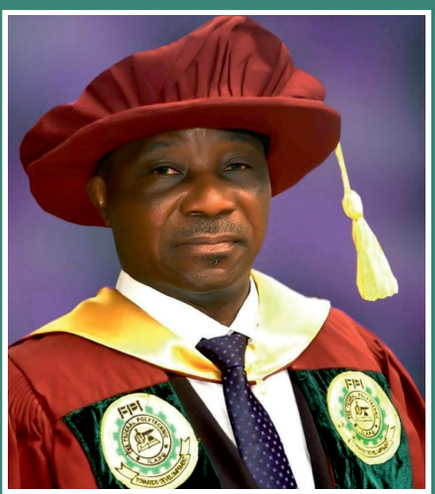

Distinguished ladies and gentlemen, it is on this note that I welcome you once again to the 2nd International Conference, The Federal Polytechnic, Ilaro, Ogun State. Nigeria and wish you a successful and an impactful deliberation.

Thank you all and remain blessed.

Engr. Olufemi A. Osore
Chairman, Conference Organizing Committee

OPENING SPEECH

2nd INTERNATIONAL CONFERENCE, THE FEDERAL POLYTECHNIC, ILARO, OGUN STATE. NIGERIA:

OPENING SPEECH BY THE RECTOR OF THE FEDERAL POLYTECHNIC, ILARO – ARC. OLUSEGUN O. ALUKO, PhD ON TUESDAY NOVEMBER 10, 2020

The Principal Officers of the Polytechnic,

Deans of School and Directors,

Heads of Department and Units

The Keynote Speaker - Prof (Mrs.) Maame Afua Nkrumah
Takoradi Technical University, Takoradi, Ghana,

The Lead Paper Presenter I - Dr. (Engr.) Kamoru Oluwatoyin Kadiri
The Federal Polytechnic, Offa, Kwara State. Nigeria,

The Lead Paper Presenter II - Prof. Olaniyi Samuel Okedele
University of Lagos, Lagos. Nigeria,

Invited Guests,

Distinguished Conferees,

Staff and Students of this best Polytechnic in Nigeria,

Gentlemen of the Press,
Ladies and Gentlemen,

It is my pleasure to welcome all participants to this 2nd International Conference (Virtual) of the Best Polytechnic in Nigeria, The Federal Polytechnic, Ilaro, Ogun State, themed **"Emerging Trends in TVET as a Contributor to Economic Transformation for Global Competitiveness".** You would agree with me that the theme for this biennial conference is very concise and identifies with the present global situation. It is on this note that I welcome the eminent Speakers and Guests from all over the country and beyond that have deemed it fit to share their knowledge and vast experiences with colleagues in the academia on issues that are germane not only for our national development but also the global community.

One of the keywords in the theme has to do with Emerging Trends in TVET. Therefore, we would expect this conference to address the issues of emerging trends in the area of demography, economic globalization, cross disciplinary technology, integration and innovations. We would also be expecting a conceptual framework that can be

OPENING SPEECH

developed for transition from vocational education to labour market.
TVET is recognized as a crucial vehicle for social equity, inclusion and sustainable development. It advocates development of the head (knowledge), training of the head (dexterity) and enriching of the heart.

Ladies and gentlemen, it is very pertinent for me to emphasize that acquisition of vocational skills is a major contributor to economic transformation which would invariably reduce the over dependence on white collar jobs and also provide succor for the resultant effects of Covid-19 pandemic.

I would also like at this juncture to appreciate the National Board for Technical Education (NBTE) for initiating and developing curriculum on vocational skills for the teeming youth in fortifying them for economic development and sustainability. This state of affairs has gone a long way in adding value to the quality of our graduates in becoming employers of labour and not job seekers.

The Federal Polytechnic Ilaro has never left any stone unturned to support the efforts of the Government in this regard and, generally, in ensuring the successful achievement of the objectives of Technical and Vocational Education in Nigeria. This is the reason we are always resolute in our focus on proffering solutions to the challenges of TVET and Science, Technology, Engineering and Management which are the bedrocks of national development.

I thank all participants from within and outside Nigeria for your interest in our Institution and appreciate the Organizing Committee for a job well done. I wish everyone a very successful, safe and fruitful conference.

Thank you for listening and God bless.

VOTE OF THANKS

Dr. (Mrs) C. B. Iro-Idoro

On behalf of the Rector –Arc. Olusegun Olarewaju Aluko, PhD, the Management Team, the Organizing Committee, Staff and Students of No. 1 Polytechnic in Nigeria – The Federal Polytechnic, Ilaro, Ogun State, with deep sense of appreciation, I thank the Keynote Speaker – Prof. (Mrs) Maame Afua Nkrumah, the Lead Paper Presenters – Engr. Dr. Kamoru Oluwatoyin Kadiri and Prof. Olaniyi Samuel Okedele for accepting to share their knowledge and wealth of experience with us at this 2nd biennial Conference of the Polytechnic.

We appreciate all participants from within and outside Nigeria for your interest as demonstrated in the high number of papers submitted for sharing and discussion.
Also, we thank all members of staff of this great institution for your unalloyed support towards the growth and development of the institution, particularly for ensuring an enabling academic environment.

On behalf of the Chairman of the Organizing Committee, I appreciate the commitment, diligence and dedication of members of the Organizing Committee and the various Sub-committees for a successful hosting of this Conference.

Finally, I wish all our participants fruitful presentations at the various Technical Sessions.
Thank you.
